

EECS Admission Form: Five-Year BS/MS Program

Computer Engineering
 Computer Science
 Electrical Engineering

*Year of Undergraduate Catalog you are following _____

*(Please indicate Major and Catalog Year. *Catalog Year must be 2010 or later.)*

Qualified students may take up to **6 hours** of approved graduate courses for their departmental and technical electives and have them count toward both their B.S. and M.S. degrees at the University of Tennessee.

Student Name (Print) _____ GPA _____

Student ID Number _____ Required Course Hours Completed _____

Intended date of baccalaureate degree (semester/year) _____

CHECK ALL PROGRAMS YOU ARE INVOLVED IN:

Engineering Honors
 Chancellor Honors
 Haslam Scholars

Student Signature: _____ Date: _____

Departmental Approval: _____ Date: _____

The following graduate courses have been approved for both the B.S. and M.S. degrees.

Semester/ Year	Course Number	Section Number	Departmental Approval/Date	Graduate Approval/Date	College Approval/Date

DEPARTMENTAL REQUIREMENTS:

- Students must have an overall GPA of at least 3.4 to be admitted to the program.
- Conditional admission may be granted after completing 64 hours of required course work while full admission is granted after completing 96 hours of required course work with a minimum overall UT GPA of 3.4 in required course work. Students must at least have conditional admission before taking graduate courses for both their B.S. and M.S. degrees.
- Admission must be approved by the EECS Graduate Program Director and the Graduate School.
- Courses taken for graduate credit must be pre-approved by the EECS Graduate Program Director. Whenever 4xx and 5xx courses are offered on the same subject, students are required to sign up for the 5xx version.
- Students must follow the normal procedure for admission to Graduate School.

INFORMATION FOR THE STUDENT:

1. You must meet with the EECS Graduate Program Director to insure you meet the departmental requirements for admission to the Five-Year BS/MS Program.
2. Each semester you intend to take a course for graduate credit and have it count toward your B.S. degree, you must meet with the director for approval of the graduate course to count toward your M.S. degree. This must be done at the beginning of the semester you are taking the course.
3. The department submits the signed form to the Graduate School for approval. After approval, the Graduate School insures you receive graduate credit for the course; however, this can occur only after you have registered for the course. The Graduate School sends copies of the signed form to the department and college. The college then enters the course into DARS. This process must be followed each semester a graduate course is taken in the program to allow the course to count for both undergraduate and graduate credit.
4. You must follow the normal procedure for admission to the Graduate School. Admission to the Five-Year BS/MS Program does not admit you to the EECS Graduate Program.
5. Please be aware that this program is designed for students pursuing their M.S. degree at The University of Tennessee. Other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the B.S. degree.
